* Approximate weight

Product finishes:

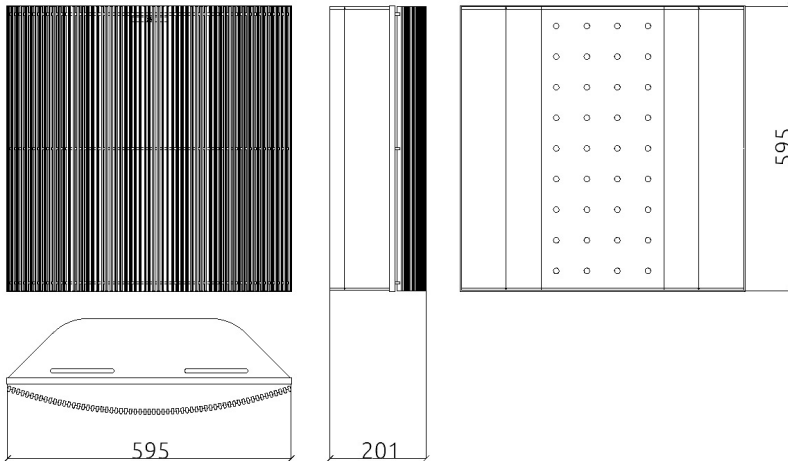

Cerise Marron Wenge

Description

Usually the most noticeable problems in a recording or post-production studio are caused by low frequencies, and are often overlooked in traditional acoustic treatments. Eiger is a high performance Bass Trap, carefully developed by our R&D department to treat low frequencies. With its classic and delicate design Eiger is ideal for Home Cinemas and Hi-Fi rooms. Craft truly unique ambiances with this symbiosis of acoustic performance and design.
